All of our preschool programs have a Four Star Rating through Great Start to Quality!

Great Start to Quality is a statewide initiative that helps child care and preschool providers go above and beyond the basic health and safety licensing requirements to offer high-quality early learning experiences for children. Great Start to Quality is implemented by the Early Childhood Investment Corporation and funded by the Michigan Department of Education.

Great Start to Quality evaluates programs in more than 40 different criteria under five standards:

1. Staff Qualifications and Experience
2. Family and Community Engagement
3. Administration and Management
4. Learning Environment
5. Curriculum and Instruction

Participating programs are awarded quality stars from one to five based on the number of standards met. A Four Star Rating indicates the program demonstrates high quality across almost all of these standards.
